# PROJECT DEVELOPMENT PHASE

## SPRINT – 2

In sprint – 2 we are going see about the dashboard of the app.

Usually in dashboard it consists of Home page, Profile, About the App, Log out.
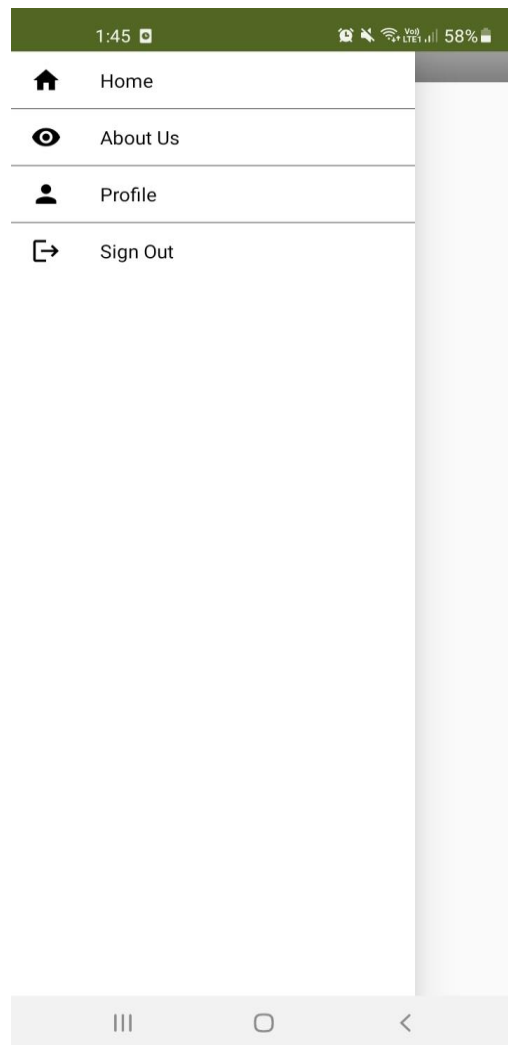

# About the Purpose of App

## About

The main goal of this app is to ensure the safety and well- being of the child and also know about the current location, health.

In profile page we save the data in case of any emergency situation as a parent you can update the profile data.

And also you can restore the data which you want prefer as a data.

MIT App Inventor blocks act as a backend for the app which is designed.

The above figure says about the function of blocks in MIT App Inventor is blocks are well designed for screen 2 to work properly.
